

## Platform Scales DVC

- Flat construction
- Rugged and maintenance-free
- High-quality design
- Wide range of accessories
- Legal-for-trade as commercial scale, Class III
- Hazardous area variants (option)

### Application

Thanks to their flat, rugged and maintenance-friendly design, the DVC platform scales are perfectly suitable for use in virtually any industry.

High-quality design (optionally electropolished, stainless steel up to grade V4A), easy cleaning (removable load plate) and a wide range of accessories qualify the scales for use in sophisticated applications, e.g. in the chemical and food industries.

### Design

- 10 sizes from 400 x 300 mm to 2000 x 1500 mm
- Removable load plate
- Material St37 powder-coated (median grey, RAL 7040) or stainless steel 1.4301 (V2A) (up to size 800 x 600 load plate V2A on standard)
- Option: load plate V4A, electropolished, surface roughness < 3µm
- Option: complete scale in V4A, electropolished, surface roughness < 3µm
- Floor-mounted variant with 4 adjustable feet
- Option: foundation frame for pit-mounted variant
- Legal-for-trade variant for 3000d or multi-range 2 x 3000d
- Hazardous area variants for
  - Gas-Ex Zone 1 (ATEX) in protection class Ex-i
  - Gas-Ex Zone 2 (ATEX)
  - Dust-Ex Zones 21 and 22 (ATEX)

- Wide range of accessories, e.g.
  - Tear-drop load plate
  - Ball-shaped load plate
  - Roller train
  - Drive-on ramps
  - Mounting supports
  - Bottom fixation
  - ...

Further special variants are available and will be offered to you upon request.

We will be pleased to suggest a complete scale configured to your requirements, e.g. DVC platform scale complete with DISOMAT weighing electronics, printer, displays and other accessories.

**Available combinations of scale size and rated capacities:**

Size [mm]	Weighing range [kg]					
	60	150	300	600	1500	3000
400x300	X					
500x400	X	X				
650x500	X	X	X			
800x600	X	X	X			
1000x800				X	X	X
1000x1000				X	X	X
1250x1000				X	X	X
1500x1250				X	X	X
1500x1500				X	X	X
2000x1500				X	X	X

**View of scales up to size 500 x 400 mm**  
(with ST37 variant up to 650 x 500 mm).  
Load plate of V2A on standard.

**View of scales up to size 650 x 500 mm**  
(with ST37 variant up to 800 x 600 mm).

**Dimensions and load limits:**

Support feet diameter: 80 mm

Adjusting range: 5 mm

Size [mm] (a x b)	Height [mm] (c)	Support spacing [mm] (d x e)	Cable length	Dead weight [kg]	Strength Mid [kg]	Strength Side [kg]	Strength Corner [kg]
400x300	94 (VA:101)	344 x 244	1.5m	11	130	85	45
500x400	96 (VA:104)	443 x 343	1.5m	18	300	200	100

2000x1500	100	1804 x 1304	6m	425	4500	3000	1500

## DVC Foundation Frame

For mounting the DVC scales in a pit, appropriate foundation frames are available. Designed to neatly frame the foundation pit, these frames also ensure proper centering and provide metallic mounting surfaces for the platform scale's adjustment feet.

The requirements of the pit bottom regarding levelness and strength are not very high. All you have to do is install the foundation frame in the prepared pit and fill the residual gap with concrete. For further details, please see the installation instructions given in Service Manual BV-H 2224.

### Dimensions of user's pit

**Note:** Dimensions H, G (dewatering) and E, F (cable inlet) are useful suggestions and can be varied in case of need.

Platform size	Foundation frame inner dimensions	Pit inner dimensions (A x B)	Pit depth (C)	Mounting surface (D)	Correction sheets	E	F	G	H
800x600 St37	814 x 614	970 x 770	160	220	150 x 150	200	485	560	485
800x600 VA	814 x 614	950 x 750	105	250	200 x 200	175	475	570	475
1000x1000	1014 x 1014	1150 x 1150	105	300	250 x 250	250	800	575	575
1250x1000	1264 x 1014	1400 x 1150	105	300	250 x 250	250	800	575	575
